SBS			46	655.500
ABC			47	662.500
Win TV			49	676.500
Nine			50	683.500
Prime			48	669.500

* PLEASE NOTE : The "Power" level for each transmitter does NOT relate to actual signal strength. This is the transmitter's "Effective Radiated Power (ERP)". This means a transmitter with a higher power does NOT output a stronger signal, but rather, it's signal will remain at a desirable level over a greater distance.
